

Environment and social accountability policy

Cane-line strives to supply sustainable and comfortable quality furniture manufactured with respect for the environment and social accountability.

We attempt to improve our efforts on behalf of the environment on an ongoing basis and take responsibility for the people who create our furniture. We aim to minimize the consumption of resources and prevent pollution in all phases of production.

Cane-line does not accept child labour and we respect human rights and demand the same commitment from our suppliers.

We focus on design and comfort and also take the environment into account when we choose our raw materials and develop new production methods and products. Cane-line complies with environmental and labour legislation and demand that our suppliers comply with their legislations within these areas.
